

Trapezium Wrist Rest Standard

 BAKKER ELKHUIZEN

Work Smart - Feel Good

Ergonomic wrist rest

The perfect wrist rest for today's keyboards

The Trapezium Wrist Rest Standard is especially designed for full-size keyboards and provides natural support for your wrists and hands.

This wrist rest has the right thickness, aiming at bringing the wrist to the same height as current keyboards.

When working with a keyboard and mouse it is important that the arm is sufficiently supported. A wrist support helps to keep the wrist straight during typing and can be used "to rest" for a moment during one's work.
